

## 18.6mm Diameter Lithium Rechargeable Batteries with High Capacity

### Our Product Introduction

for more products please visit us on [enookbattery.com](http://enookbattery.com)

#### Basic Information

- Place of Origin: China
- Brand Name: Enook
- Certification: CE, RoHS, MSDS
- Model Number: ENOOK3600
- Minimum Order Quantity: 100
- Price: 2.5
- Packaging Details: 200pcs/carton
- Delivery Time: 3 days
- Payment Terms: T/T, Paypal
- Supply Ability: 100,000/day

#### Product Specification

- Size: 18mm X 65mm
- Charging Temperature: 0°C~50°C
- Volt: 3.6
- Diameter: 18.6 +0 -0.3mm
- Discharge Rate: 20A
- Operating Temperature: -20°C To 60°C
- Standard Charing Rate: 0.5C
- Minimum Capacity: 3450mAh
- Highlight: 18.6mm Lithium Rechargeable Batteries, 3.6V Lithium Rechargeable Batteries

## Product Description

### Product Description:

#### 18650 Battery Cell Overview

The 18650 Battery Cell is a versatile and high-performance secondary lithium ion battery that is widely used in various electronic devices. With a compact and standardized size of 18 \* 18 \* 65 mm, it is the preferred choice for many manufacturers in the industry.

#### Product Description

The 18650 Battery Cell is a rechargeable battery that is designed to provide long-lasting power for electronic devices. It has a charging temperature range of 0°C to 50°C, making it suitable for use in a wide range of environments.

#### High Capacity and Performance

The 18650 Battery Cell has a capacity of 3600mAh, which allows it to provide a high amount of power for a longer period of time. It also has a minimum capacity of 3450mAh, ensuring that it delivers consistent and reliable performance. This makes it ideal for use in high-drain devices such as flashlights, power tools, and electric vehicles.

#### Durable and Safe

The 18650 Battery Cell is built to withstand frequent use and harsh conditions. It is equipped with multiple safety features such as overcharge protection, over discharge protection, and short circuit protection, ensuring the safety of both the battery and the device it powers.

#### Wide Application

The 18650 Battery Cell is widely used in various electronic devices, including but not limited to laptops, power banks, electric vehicles, flashlights, and portable electronic devices. Its compact size and high performance make it a popular choice among manufacturers.

#### Conclusion

The 18650 Battery Cell is a reliable and high-quality product that delivers exceptional performance and durability. With its high capacity, safety features, and wide application, it is the go-to choice for many electronic device manufacturers. Choose the 18650 Battery Cell for a powerful, long-lasting, and safe power source for your devices.

### Features:

Product Name: 18650 Battery Cell

Diameter: 18.6 +0 -0.3mm

Size: 18mm X 65mm

Charging Temperature: 0°C~50°C

Discharge Rate: 20A

Typical Capacity: 3600mAh

18650 Li-Ion Cell Pack

18650 Lithium Ion Rechargeable Battery

18650 Li-Ion Accu

18650 Battery Pack

18650 Li-Ion Battery

18650 Lithium Ion Cell

### Technical Parameters:

Product Name	18650 Battery Cell
Model	18650 Li-Ion Accu
Technical Parameters	18650 Li-Ion Cell
	18650 Lithium Ion Cylindrical Battery Cell
Voltage	3.7V
Standard Charging Rate	0.5C
Volt	3.6
Charging Temperature	0°C~50°C
Quick Charge Rate	1C
Capacity Mah	3600mAh
Battery Size	18 * 18 * 65 Mm
Discharge Rate	20A
Minimum Capacity	3450mAh

Net Weight	50g
------------	-----

Applications:

18650 Battery Cell - Enook ENOOK3600

**Brand Name:** Enook  
**Model Number:** ENOOK3600  
**Place of Origin:** China  
**Certification:** CE, RoHS, MSDS  
**Minimum Order Quantity:** 100  
**Price:** \$2.5  
**Packaging Details:** 200pcs/carton  
**Delivery Time:** 3 days  
**Payment Terms:** T/T, Paypal  
**Supply Ability:** 100,000/day  
**Typical Capacity:** 3600mAh  
**Net Weight:** 50g  
**Charging Temperature:** 0°C~50°C  
**Standard Discharge Rate:** 3C  
**Volt:** 3.6

The Enook ENOOK3600 is a high-quality 18650 Lithium Ion rechargeable battery cell that is designed to meet the demands of modern electronic devices. As one of the leading manufacturers in China, Enook takes pride in producing top-notch battery cells that are reliable and durable.

Applications and Scenarios

The Enook ENOOK3600 battery cell has a wide range of applications and can be used in various scenarios. Its compact size and high capacity make it ideal for use in portable electronic devices such as:

- Laptops and notebooks
- Tablets and e-readers
- Power banks
- Flashlights and headlamps
- Electronic cigarettes and vaporizers
- GPS devices
- Remote controlled toys

With its high capacity of 3600mAh, the Enook ENOOK3600 battery can provide long-lasting power for your devices. This makes it perfect for outdoor activities such as camping, hiking, and traveling where access to electricity may be limited. It is also a great choice for everyday use, allowing you to stay connected and productive on the go.

Product Features

The Enook ENOOK3600 battery cell boasts a number of impressive features that make it stand out in the market:

- High Capacity:** With a typical capacity of 3600mAh, this battery cell can provide long-lasting power for your devices.
- Lightweight and Compact:** Weighing only 50g, this battery cell is lightweight and easy to carry around, making it perfect for portable devices.
- Fast Charging:** The Enook ENOOK3600 battery cell has a standard discharge rate of 3C, allowing for quick and efficient charging.
- Wide Temperature Range:** This battery cell can be charged and used in temperatures ranging from 0°C to 50°C, making it suitable for use in various environments.
- Safe and Reliable:** With CE, RoHS, and MSDS certifications, you can trust that this battery cell is safe and reliable for use in your electronic devices.
- Investing in the Enook ENOOK3600 battery cell means investing in a high-quality and dependable power source for your devices. With a minimum order quantity of 100 and a competitive price of \$2.5, you can easily stock up on these battery cells for your personal or business needs. Plus, with a supply ability of 100,000 cells per day, you can rest assured that your orders will be fulfilled promptly. Upgrade your electronic devices with the Enook ENOOK3600 battery cell and experience reliable, long-lasting power. Place your order today and see the difference it can make!

<b>Standard Discharge Rate:</b>	3C

#### Product Description

The Enook 18650 Lithium Ion Rechargeable Battery is a high quality secondary battery that is widely used in various electronic devices. With a model number of ENOOK3600, this battery is known for its reliable performance and long-lasting power.

Made in China and certified by CE, RoHS, and MSDS, this battery meets international standards for safety and quality. The minimum order quantity for this product is 100 units and it is priced at \$2.5 per piece, making it a cost-effective choice for both personal and industrial use.

The battery is packaged in sets of 200 pieces per carton and can be delivered within 3 days after payment is received. We offer flexible payment terms including T/T and Paypal, and our supply ability is 100,000 units per day.

The size of this 18650 battery cell is 18mm X 65mm, making it compact and easy to fit into various devices. It can operate in a wide temperature range of -20°C to 60°C and has a charging temperature range of 0°C to 50°C. The quick charge rate is 1C and the standard discharge rate is 3C, ensuring fast and efficient charging and discharging.

#### Customization Options

At Enook, we understand that every customer has unique needs and preferences. That's why we offer a range of customization options for our 18650 battery cell.

**Battery Pack:** We can create custom battery packs using multiple 18650 battery cells, according to your specific requirements.

**Capacity:** The standard capacity of our 18650 battery cell is 3600mAh, but we can also customize it to meet your desired capacity.

**Logo Design:** We can print your company logo or brand name on the battery cell for a personalized touch.

**Color:** Our battery cell comes in a standard black color, but we can also provide it in different colors upon request.

**Labeling:** We can label the battery cell with relevant information such as model number, capacity, and safety warnings.

For more information on our customization options, please contact our sales team.

#### Conclusion

The Enook 18650 Battery Cell is a reliable and high-performance battery that is ideal for a wide range of applications. With our customizable options, you can tailor this battery to your specific needs and preferences. Contact us today to place your order or to learn more about our products and services.

## Packing and Shipping:

#### Packaging and Shipping for 18650 Battery Cell

Our 18650 battery cell is carefully packaged and shipped to ensure its safe and timely delivery to our customers. Here is our packaging and shipping process:

#### Packaging:

Each 18650 battery cell is individually wrapped in a protective plastic or paper sleeve to prevent any damage during transportation.

Multiple cells are then placed into a sturdy cardboard box with appropriate cushioning materials to prevent movement and absorb any impact.

The box is sealed and labeled with the necessary product information for easy identification.

#### Shipping:

We offer various shipping options to meet our customers' needs:

**Standard Shipping:** Our default shipping method, which typically takes 3-5 business days for domestic orders and 7-14 business days for international orders.

**Expedited Shipping:** For customers who need their orders to arrive faster, we offer expedited shipping with a guaranteed delivery time of 1-3 business days for domestic orders and 3-5 business days for international orders.

**International Shipping:** We ship our 18650 battery cells to customers all around the world, but please note that delivery times may vary depending on the destination country's customs process.

Once your order has been shipped, you will receive a tracking number via email to monitor your package's delivery status. Please note that any additional customs fees or taxes incurred during shipping are the responsibility of the customer.
